

LOT 402

A late 19th century Swiss Black Forest carved softwood decanter and glass stand, modelled in the form of a standing bear supporting a basket on its back, fitted with a glass decanter and four glasses, height of bear 25cm (lacking two glasses).

Estimate: £300 - £500

Condition Report

Some overall very minor surface wear to high points but generally in good order. The base is original, all having been carved from a whole. The decanter and glasses are probably not the original and are lacking two glasses.
