

## LOT 1087

A Chinese carved hardwood figure of Li Tieguai, late Qing dynasty, the immortal modelled standing with foot resting on a gnarled crutch, accompanied by a rat and cockerel, height 60cm.

Estimate: £80 - £120

## Condition Report

1087. Missing one inset eye. Split to back of head and to base. Loss to edge of robes. Structure behind his right shoulder looks as though it probably held a lamp fitting at one stage as it is drilled and very flat and unfinished looking.
