LOT 2803

A Queen Anne needlework panel, depicting the queen and attendant standing in a garden setting surrounded by plants, below two angels, the moon, stars and the sun, all worked in coloured silks in a variety of stitches, 22cm x 21cm, later attached to a silk backing and framed.

Estimate: £400 - £600

Condition Report

2803. It is a sweet panel which is slightly misshapen and appears to be sewn to a backing. Colours are quite strong and there is very little wrong with it apart from the mounting and framing. It would be much enhanced in a better frame.
