LOT 4203

A St. Louis flowering strawberry paperweight, circa 1850, the central green stem supporting a white flower, leaves and two fruits on a spiralling white latticino ground, diameter 7cm (small chips to footrim).

Estimate: £300 - £500

Condition Report

4203. Small blemish/chip to footrim and two small nicks to footrim. Otherwise in good condition overall with very light surface wear. A few small air bubbles amidst the lampwork decoration. The latticino canes sit quite at the edge of the dome, perhaps suggesting reduction.
