Condition Report

1036. The watch winds and is currently running but please be aware we give no guarantees to working order or reliability of any clock or watch.

Dial in generally fair order but it does have some dirt specks particularly around the date aperture. The badly scratched dial makes it look worse than it is in reality.

The hands adjust, please note the hour hand has some rust marks. The bezel turns without clicking but is quite stiff and is securely in place. Case has typical scratches and wear but no significant dents. No logo to case back.
