Condition Report

2018. All three wind smoothly and are currently working but please be aware we give no guarantees to working order or reliability of any clock or watch.

Speedking - 3cm diameter, length 3.5cm. The dial has some slight discolouration and spotting all over but no significant scratches. Some slight degrading to luminous detail. It winds smoothly and is currently running and hands adjust smoothly. Crown/winder screws in tightly. Case has typical surface scratches and wear but no significant dents or damage. As per description numbered '5056' between lugs at 12 o'clock.

Oyster - 3.1cm diameter, length 3.8cm. Typical surface wear and scratches to case. Few small dents to back of case. Dial in generally good order with very minor discolouration. It runs and winds and adjusts smoothly and crown screws down tightly. The winder has the Rolex logo on it. Case has typical surface scratches and wear but no significant dents or damage. There is no number between lugs at 12 o'clock. Case back screws in well.

Handless Oyster - 3cm diameter, length 3.5cm. Missing hands, damaged and discoloured dial. Case with typical surface wear and scratches but no significant dents or damage. Case back with presentation inscription. It winds smoothly and is ticking. Winder is detailed 'Rolex Oyster' and screws in tightly.
