

Wristwatches and Pocket Watches / Thursday, 23rd May 2019 / Lot 1090

LOT 1090

An Omega Speedmaster Professional chronograph steel cased gentleman's moon bracelet wristwatch, circa 1975, the signed jewelled movement numbered '39924746', with dust cover, the case interior detailed '145022-76 ST', the signed black dial with luminous hour markers, three subsidiary dials and tachymeter scale, the case back detailed 'Flight-qualified by NASA for all manned space missions. The first watch worn on the Moon', on an Omega bracelet with fold-over clasp, case diameter 4.2cm.

Estimate: £1,500 - £2,500

Condition Report

1090. Generally good condition with typical surface scratches and wear commensurate with age. Would benefit from a clean as it's a bit dirty. No significant damage. It is currently in good working condition, it winds and adjusts smoothly and all functions are working but please be aware we give no guarantees to working order or reliability of any clock or watch.

Dial is in good clean order. Glass a little scratched. Case and bezel with typical light surface scratches and wear. Bracelet is a little loose with typical surface scratches and wear but no significant problems.
