### Condition Report

87. Torn with loss to bottom margin. Emanating from this tear is a large tear that runs through the image about three-quarters of the way up. Other closed tears to margins. Some tears have old paper repairs. Others, including the large tear, have been stabilized with Arcare R80 archival paper repair tape. Some creasing around title. Old stain around title too. Paper has very minor soiling and light age toning throughout. Colours seem okay but are probably slightly faded. Unframed.
