LOT 535

A French white gold and diamond seven stone cluster ring, claw set with the principal circular cut diamond within a surround of six smaller circular cut diamonds in a floral design, between split shoulders, ring size approx J1/2.

Estimate: £600 - £800

Condition Report

535. The diamonds are attractive clear white stones, with only one or two tiny inclusions. There are a few surface marks to the back of the shank. The ring looks to be re-constructed, with the diamond set top added to the pierced gallery beneath. There are signs of wear to the sides of the ring. Suggested age - 1960s. Weight 8.1g.

Difficult to calculate carat weight of diamonds due to the setting. A very approximate calculation would be total diamond carat weight 0.85ct - 1ct.
