LOT 2639

A pair of late 20th century cast composition stone garden urns on stands, each reeded circular planter raised on a flared stem and square section column, height 130cm, diameter 62cm.

Estimate: £150 - £250

Condition Report

2639. Condition is fairly good with typical surface weathering. There are some moulding faults to both stems and there is excess concrete still attached to the underside of the bases, so they don't sit straight on a solid floor.
