LOT 2075

A George III style mahogany long rectangular dining table, the top formed from three 18th century leaves, raised on a pair of later turned stems and carved tripod legs, height 73cm, length 272cm, depth 135cm.

Estimate: £400 - £600

Condition Report

2075. Some overall minor scuffs and marks, mainly to edges of top but generally in good clean condition. The two pedestals fit into slots on the underside and currently do not have screws to attach it, but it still holds the top reasonably well without.
