

Jewellery / Tuesday, 14th July 2020 / Lot 678

LOT 678

A gold and diamond bar brooch, the centre formed as a marquise shaped cluster, mounted with cushion cut diamonds and a further cushion cut diamond to each bar terminal, length 4.8cm.

Estimate: £350 - £400

Condition Report

678. The central marquise shaped cluster is probably the top of a ring. There is variation of quality to the old cut cushion shaped diamonds. Some diamonds have numerous internal inclusions. The three principal diamonds have surface reaching inclusions and some chips. Furthermore there are surface reaching inclusions to some of the smaller diamonds. The diamonds to the bar terminals both have internal inclusions some of which are surface reaching.
