LOT 655

A Victorian gold cased hexagonal slide action pencil with floral engraved decoration and a bloodstone shield shaped terminal, extended length 13cm.

Estimate: £50 - £80

Condition Report

655. The pencil is in good condition with no damage, splits or repairs. It functions properly and the lead rotates normally. It looks like a 1mm wide lead. The pencil is gold cased over a metal core, so would presume it is a type of gold plating. No hallmarks. The engraved case is in good clean condition.
