

Jewellery / Wed, 25th November 2020 / Lot 621

### LOT 621

A gold backed and silver set, diamond and cultured pearl brooch in a twin spray design, mounted with cushion cut and rose cut diamonds, spaced with cultured pearls, weight 9.2g, width 5cm, with a case.

Estimate: £400 - £600

---

### Condition Report

The brooch is in generally good condition, the radiating knife edge bars terminating as either diamonds or cultured pearls appear to be bent, this in our view is an intentional part of the design so as to convey a naturalistic form, rather than a geometric pattern. The diamonds are attractive white stones with only one or two inclusions, one or two of these are surface reaching. Pearls have not been tested and are therefore offered as cultured, one pearl cracked. Case in good condition.
