## LOT 502

A gold, diamond and quartz cat's eye ring, mounted with the circular cabochon cat's eye within a surround of cushion shaped diamonds between split shoulders, weight 5.5g, ring size approx N.

Estimate: £200 - £300

---

## Condition Report

502. The quartz cat's eye has surface scratches and tiny chips, which require polishing out. The surrounding cushion shaped diamonds vary in cut and size of facets. The diamonds have a few internal inclusions, one diamond has a significant surface reaching inclusion. The claws are generally in quite good condition, the shank a little thin at the back. There is a French owl import mark for gold, with 75 on the chest which means it was marked in Paris. Suggested age – first half of the 20th century. Central quartz diameter approx 1cm.
