Condition Report

1140. Structurally the clock is in generally good condition, but there is extensive damage to the inlay with lifting and some misshaping/bending to the cut brass. The clock is dirty and would benefit from a clean. Otherwise everything appears to be there, and the glass panels are in good order. Hinges are good. Dial in good order. The clock winds smoothly and runs but please be aware we give no guarantees to working order or reliability of any clock or watch.
