

Collectors' Items, Works of Art and Light Fittings / Thursday, 18th March 2021 / Lot 2518

LOT 2518

A late 19th century ebonized walking cane, the handle carved as a dog's head above a gilt metal collar, length 92cm.

Estimate: £60 - £100

Condition Report

2518. Most of the damage should be visible from the photographs, with some surface cracks around ear of rear of head and collar. The rest of the shaft and ferrule are in good order with only minor scuffs. First thought was that it was ivory but could not find any of the normal grain that is present. It could possibly be vegetable ivory, but fairly sure it is not resin.
