LOT 2513

A 19th century and later Malacca walking cane, the handle inset with a printed plaque of a bird and a miniature brass telescope, length 89cm.

Estimate: £50 - £80

Condition Report

2513. Overall there are fairly typical surface scuffs and marks. The handle has two small hairline cracks to the edge and the brass ferrule is cracked in three places. The lens does function, but only at fairly short distance, magnifying objects at the distance of about 2 feet.
