LOT 1612

A Royal Doulton figure of Folly, HN1335, designed by L. Harradine, height 22cm (small crack to base).

Estimate: £300 - £400

Condition Report

1612. When viewed from the back, the right corner has had a small area of restoration, probably where there was a precious chip to the footrim. The hairline crack is probably a result of this and is in the same area, running up the side of the base and approx 1cm onto the top of the base. The overpainting on the base extends to the front of the piece. Otherwise the piece is ok.
