LOT 545

A moss agate and foil backed garnet set oval clasp, probably Continental, circa 1800, the oval dendritic agate within a surround of foil backed garnets, width 2cm, on a black velvet collar, total length 32.5cm.

Estimate: £350 - £450

Condition Report

545. Old vertical internal crack like inclusion to the moss agate, this does not break the surface of the stone. One or two chips to a few of the surrounding garnets. Old test marks to the back of the clasp but generally good condition.
