Condition Report

54 - Wyllies: Both have considerable foxing and browning around the edge of the paper, this disperses as you near the plate line. No obvious signs of foxing within the plate line. Some age toning to the paper. Neither have tears or creases. Frames are possibly original but show signs of wear including scuffs and scratches.

King: The print seems to be in fair condition. The mount has foxing throughout and this may have transferred to the paper beneath. Frame with some scuffs and scratches.
