LOT 692

A gold circular sprung bangle, each terminal of spherical form with applied wirework decoration, otherwise in a ropetwist design, unmarked, total weight 23.6g, unexpanded inside width 5cm.

Estimate: £700 - £1,000

Condition Report

Both terminals have splitting where they are beginning to come away from the bracelet.

The interior of the bangle is likely to have a base metal spring fitting.

The bead terminals show signs of re-gilding.

A few shallow dents to the bangle overall.
