

Jewellery / Wed, 2nd November 2022 / Lot 566

LOT 566

A late Victorian gold circular and bead link watch Albert chain, unmarked, fitted with a swivel, detailed '9c', a gold T-bar, unmarked, and a gilt metal tassel drop, total weight 17.2g, length including tassel drop 30cm.

Estimate: £200 - £300

Condition Report

A gold mark has been found on the main portion of the chain, detailed '9c', in addition to the '9c' on the swivel.

The tassel drop now we believe may be gilt metal, on closer inspection the ends of the tassels look to be wearing down to the silver coloured metal. Two of the ball terminals to the tassels have holes.

Total weight excluding tassel - 14.7g.

Otherwise the piece is generally in good condition with typical light wear.
