

Jewellery / Wed, 2nd November 2022 / Lot 733

LOT 733

A gold, emerald and diamond rectangular cluster ring, mounted with the rectangular cut emerald within a surround of cushion cut diamonds between split shoulders, detailed '18ct', weight 2.7g, ring size approx S.

Estimate: £100 - £150

Condition Report

Emerald is chipped in one corner, with general abrasion to facet edges otherwise. The emerald is a relatively inclusion free stone.

One diamond is badly chipped, one or two other diamonds have surface reaching inclusions.

Minor wear and scratching to the setting and shank.

Suggested age - possibly 1950s/60s.
