

Jewellery / Wed, 15th February 2023 / Lot 682

LOT 682

A silver and enamelled panel link bracelet, 1950s, probably German, possibly by Perli Werkstatte each curved rectangular panel decorated with an abstract design, unmarked, weight 60.8g, length 18cm, with an associated case.

Estimate: £50 - £100

Condition Report

In fairly good condition.

When looking under a 10x loupe, there is a very small crack to the edge of one of the panels, where the central pale brown/orange area of design begins on one side.

There is dirt trapped within this crack making it appear slightly dark. (When looking at the the first image on our website, this is the second panel from the right).

The middle panel has a slight flaw to the design on the central pale brown/orange section, which looks almost yellow in colour, this is a little distracting once noticed.

Otherwise, some light scratching to the silver mounting. Clasp in working order.
