Condition Report

The ring is of recent manufacture, probably in the last 10 years.

We do not have access to a gemmological report for this ring. The peridot is of even colour, under a 10x loupe there do not seem to be any visible inclusions. A few minor nibbles to the pavilion facet edges.

The diamonds are possibly VS clarity, H/I colour. (Diamond gradings are estimations, limited by the setting and for guidance only)
