Condition Report

Cherry amber beads - 68.2g, internally streaky in both smaller and larger beads, individually knotted, chip to screw fitting, otherwise no significant chipping, typical scratching to the surface of beads.

Other cherry coloured bead necklace - 70.9g, internally clear, no streaks, surface of beads with numerous scratches, not individually knotted, screw fitting has been filled/glued into place so cannot be opened, other bead directly next to this has been glued also for some reason. One or two minor chips to drill holes, only noticeable when viewed under a loupe.

Translucent reconstituted necklace - 70.1g, interiors are cloudy, darker debris patches, individually knotted, a few chips to edges of bead holes, typical scratching.
