

Silver and Plate / Wednesday, 6th August 2025 / Lot 336

LOT 336

An Italian .925 silver model of a Fokker Dr1 triplane, length 9.5cm, and an Italian .925 silver model of the FE2 (Farman Experimental 2) pusher biplane, length 9.2cm, total weight 210.7g.

Estimate: £500 - £600

Condition Report

FE2 plane - the hinge of the tail is a little loose, this appears to be because of the connecting bar/fitting that hangs below, this appears to be bent out of shape and/or misaligned.

Fokker triplane - in fairly good condition, no obvious damage.

Typical light scuffing/scratching to both overall.
