

Firearms and Edged Weapons / Wed, 13th August 2025 / Lot 4086

### LOT 4086

A group of six 18th century and later hunting hangers, including an example with straight single-edged blade, blade length 48cm, S-shaped guard with boar-head and hound-head terminals, and wood grip with boar-head pommel (repairs and restoration throughout),

Estimate: £60 - £100

---

### Condition Report

4086. PLEASE NOTE, this is NOT a full condition report. If you require the condition of any other item in the Lot, please request this.

First hanger (top of main photo) with white grip, in scabbard - scabbard is stuck firm and needs attention to remove, this suggests the blade could be rusted.

All the swords in this Lot were stored in a garage for some time.
