LOT 4102

A George III flintlock pistol by Gillet, with sighted octagonal steel barrel, barrel length 16.5cm, and shaped and engraved locks and trigger guard, full-stocked in walnut with shaped angular grip and pull-out wood ramrod with horn tip (disassembled, parts unchecked).

Estimate: £60 - £100

Condition Report

4102 - The gun is completely deconstructed, generally looks like most parts are present but cannot confirm. Came to us from a house clearance within the box photographed. Seems as though someone has attempted DIY, but the gun looks honest beneath its deconstructed state.
