

Glassware / Thu, 25th September 2025 / Lot 1869

LOT 1869

An Art Deco Sabino opalescent glass Poissons vase, of flared conical shape, relief moulded to the exterior with overlapping fish, raised on a square base, moulded marks, height 13cm.

Estimate: £80 - £120

Condition Report

In good condition overall with no damage or repairs. There are a couple of absolutely minuscule nicks to the base edge of the foot, but they are very inconsequential.

One of the largest fish heads just beneath the rim of the vase has two tiny white inclusions to the interior body of the glass - a small manufacturing flaw, not damage.
