LOT 723

A gold, diamond and ruby cluster ring, claw set with the principal circular cut diamond within a surround of six circular cut rubies and a diamond set border, detailed '18ct', weight 4.6g, ring size approx Q1/2.

Estimate: £200 - £300

Condition Report

723. The ring is in generally good condition. Typical light surface scratches and wear but no significant damage or repairs. Some discolouration and tarnish to mount particularly around shoulders and setting. It is not hallmarked so impossible to be absolutely accurate as to when it was made, but would suggest it is not that old, maybe 30-40 years old maximum.
