Estimate: £800 - £1,200

Condition Report

1040. The watch is in generally good cosmetic condition commensurate with age. Typical light surface scratches and wear, but no significant damage or repairs. Some slight crazing to crystal/glass centre, and typical light surface scratches. The dial is in good order.

The rotor winds and the watch is currently running, but please be aware we give no guarantees to working order or reliability of any clock or watch.

Be aware the hands do adjust but it consistently slips every 5 minutes or so if the adjustment, which makes it tediously slow going. Would require some attention.
