Condition Report

1143. The watch is in generally good condition commensurate with age. Typical light surface scratches and wear to case and crystal, and some dents to case back - this can be clearly seen in the images on our website. Dial in generally good clean condition, again with typical light wear. The movement winds and adjusts smoothly and starts to run but only sporadically, stopping every 45 seconds to 1 minute, so would require attention/service/clean.
