

Cameras and Scientific Instruments / Thu, 16th October 2025 / Lot 1227

LOT 1227

An early 20th century gilt lacquered brass binocular microscope, signed 'Watson & Sons, 313 High Holborn, London' and numbered '1812', with rack and pinion focusing, fine focusing, circular stage and plano-concave mirror, on a triform base, height 46cm, within a Broadhurst Clarkson & Co mahogany case.

Estimate: £70 - £100

Condition Report

1227. The microscope is in generally good condition, some typical light surface scratches, wear and some pitting to gilt lacquer. Some wear to silvered scales. Rack and pinion working well, some minor distress to mirrors. Fits well into case.

Case in good order with typical minor scuffs and scratches.
