LOT 2516

An 18th century French armillary sphere, the central giltwood orb set within a surround of four revolving frames and outer frame, all with inscribed paper panels, raised on a turned wooden pedestal base, height 42cm.

Estimate: £500 - £800

Condition Report

2516. Hopefully from the photos you can gather a good idea of the general condition, having surface wear, surface loss, some overpainting and warping to the various circular frames. A crack to one of the outer arms and some overall scuffs to the papering.

The outer frames, particularly, are quite warped and have some considerable loss to their surface.
