LOT 1801

Two Sabino opalescent glass animal models, 1930s, comprising a squirrel on a circular base, moulded mark to tail, height 8cm, and a bird on a shaped base, engraved mark to base, height 9cm.

Estimate: £60 - £100

Condition Report

Bird - teeny tiny chip to one base corner and an even tinier nick to right eyebrow - both fairly inconsequential.
Squirrel - teeny chip to underside edge of base, narrow short chip to side edge of ears and small air bubble with rough surface to upper edge of base by feet. Again, all fairly inconsequential.
