

LOT 1681

11th December 2025

British and Continental Ceramics / Thu, 11th December 2025 / Lot 1681

## LOT 1681

Ten Karl Ens bird models, including two kingfishers on a leafy base, height 24cm, a cockerel, height 24cm, a crested tit, height 14cm, two golden-crowned kinglets on a branch base, height 18cm, and a waxwing, height 18cm (some faults and restoration).

Estimate: £100 - £150

## Condition Report

Waxwing - slightly matt appearance to glaze (a manufacturing issue) with some minor misfiring to the enamels of the tail resulting in a pitted appearance, and some light scratches to the enamels overall.

Crested tit - painted over chips to tips of crest.

Long tailed tit - minor restoration to tail and discoloured glaze to ends/tips of branch base.

Kingfishers - minor patches of discolouration to ends/tips of some of the branch base.

Cockerel - missing end of one of the largest tail feathers.

Otherwise all items in the lot are in good condition.
