

British and Continental Ceramics / Thu, 11th December 2025 / Lot 1516

LOT 1516

A Quentin Bell Fulham Pottery bowl, of deep sided circular shape resist decorated to the exterior with stems of stylized foliage against an alternate pink/buff and green glazed ground, the interior with a shaded speckled green glaze beneath a horizontal green line to the rim, incised marks to base, diameter 25.5cm, height 14cm.

Estimate: £80 - £120

Condition Report

Overall fine crazing to the glaze.

There is a minuscule pinhead sized glaze flake to the outer edge of the footrim, otherwise in good condition with no cracks, chips or restoration.

I hadn't realised when cataloguing the bowl, but the base interior has an incised head and shoulders portrait bust - you can just make this out in image 6 on our website.
