Condition Report

1085. Case with typical surface scratches and wear to enamels. No chips or repairs but some more pronounced scratches to upper edge of case back.

All white enamel beads are present but a few are chipped, which can be seen under x10 magnification.

All diamonds are present and appear to be in generally good order.

Would benefit from a clean.

The silvered dial with verdigris/green around the edge, otherwise a little dirty and discoloured.

The movement winds and adjusts smoothly but it is not currently running.
