LOT 511

A gold ring, mounted with a cushion shaped citrine between cushion shaped diamond set four stone sides, detailed '18ct', weight 3.7g, ring size approx R1/2.

Estimate: £200 - £250

Condition Report

The citrine has some heavy wear to the table and facet edges.

There is some wear to the settings of the stones, which may need re-tipping.

The ring has been resized in the past, using a lesser quality of gold, likely 9ct.

The ring is simply detailed '18ct', so no indication of age. Perhaps first quarter of the 20th century, as an opinion.

Some thinning to the shank and typical scratching to the metal.
