LOT 709

A platinum, sapphire and diamond ring, claw set with the oval cut sapphire between diamond set shoulders, mounted with circular and baguette cut diamonds, detailed 'Plat', weight 7.7g, ring size approx M1/2.

Estimate: £600 - £800

Condition Report

The sapphire has some heavy wear to the facet edges and some nibbling to the girdle.

The sapphire's colour is patchy, with some windowing and some obvious straight colour zoning. It has not been sent to a lab for testing, but we are fairly confident that it is natural.

The claws have been retipped in the past.

There is heavy wear to the sides of the ring where it has worn against other rings, as well as to the shank for similar reasons.

Sapphire weight approx 8.20-8.40ct, dimensions 12.5mm x 10.8mm x 7.8mm
