### Condition Report

The cover is in good condition overall with a tiny spot of roughness to the edge of one corner – more easily felt than seen.

The box has two chips to the inner rim edge, largest approx 1cm long by 0.50cm wide. There is a teeny tiny bruise/nick to one exterior top corner edge. There is typical wear/scratches to the underside and a few minor and insignificant surface blemishes/air bubbles to the box overall which are quite inconsequential.
