

Glassware / Thu, 26th February 2026 / Lot 1819

LOT 1819

An Italian glass Saffo lamp produced for Artemide, later 20th century, designed by Angelo Mangiarotti, the opaque white to clear cylindrical body rising to a bulbous top with sunken inner black glass well, moulded marks to metal fixings, total height 34cm.

Estimate: £200 - £300

Condition Report

In good condition overall with no damage or repairs.

The interior of the glass body has some crystalline growth and droplets of liquid residue – I assume these could be cleaned off but the design of the lamp means this area is difficult to reach.
