

Cameras and Scientific Instruments / Thursday, 12th March 2026 / Lot 1201

LOT 1201

A Canon IId Rangefinder camera, Serial No. 117649, with Canon 35mm f:2.8 lens, together with a Canon Serenar 1:4 f=13.5cm lens and a Canon 50mm f=1.8 lens.

Estimate: £80 - £120

Condition Report

1201. The camera is in generally good condition. Typical light surface scratches and wear, but no significant damage or dents. The camera winds smoothly and fires and shutter functions appear to be working well at all speeds. Lens in generally good order, with no significant damage, typical light surface scratches and wear, but glass appear to be free from scratches, haze and fungus.

Two other lenses appear to be in generally good condition. Typical light surface scratches and wear to metalwork. Glass appears to be in good order, a little dust to exterior, but free from scratches, haze, internal dust and fungus.
