### Condition Report

Some typical natural imperfections to the surfaces of the pearls. The necklace is not individually knotted, some there is some wear to one or two pearls around the drill holes.

The necklace would benefit from a clean.

Stones within the clasp appear secure.

Largest pearl diameter 5.8mm, smallest pearl diameter 2.9mm.

The pearls have an attractive lustre.

The clasp is not marked and certainly is not gold, we would suggest that it looks silver.
