LOT 2664

A 20th century clear glass eighteen-light chandelier, hung with bead swags and shaped drops, height 77cm, width 85cm.

Estimate: £80 - £120

Condition Report

2664. Appears to be one small strand of beads missing between two of the branches, but otherwise the condition seems quite good. There is some slight surface rust to the metal platform that holds the branches in place and it needs a clean, but generally ok.
