LOT 634

A gold ring, mounted with an oval cabochon pale green jade within a floral openwork surround, detailed 'PMC', weight 4.8g, ring size approx S.

Estimate: £120 - £180

Condition Report

634. Oval jade cabochon in generally good condition with no chips or cracks, but typical light surface scratches and abrasions visible under x10 magnification. The stone is a little loose in its setting so claws would need adjusting slightly to fully secure stone.

The mount has a small repairs to the shoulder, typical surface scratches and wear and a slightly misshapen shank.

The 'PMC' mark would appear to be a maker's mark, otherwise no other inscriptions.

The mount is not marked and it has not been tested but it is certainly gold and we would suggest approx 9ct.
