

British and Continental Ceramics / Thursday, 30th April 2026 / Lot 1422

LOT 1422

A Karl Ens model of a bird of paradise, raised on a white glazed branch base, height 30cm, together with a Karl Ens group of two wagtails, height 14cm, and a Hutschenreuther model of a swan, height 23cm (minor faults).

Estimate: £80 - £120

Condition Report

Bird of Paradise - tiny nick to beak and tiny nick to reverse edge of one feather on right wing. Left wing has glazed over small manufacturing blemish to edge.

Wagtails - in good condition overall with no cracks, chips or restoration.

Swan - tiny flea bite nick to tip of one feather at top of left wing, otherwise ok.
