

Jewellery / Wednesday, 13th May 2026 / Lot 503

LOT 503

A gold, seed pearl and diamond starburst pendant brooch, the principal old cut cushion shaped diamond mounted at the centre, unmarked, weight 7.8g, length 3.1cm.

Estimate: £400 - £600

Condition Report

The brooch is in generally good condition.

Pearls have a creamy lustre with minimal signs of wear.

The diamonds are old cut stones and appear secure within their settings.

The piece is unmarked, we have not tested it. The brooch is likely to be a higher grade of gold than 9ct, often they are 14/15ct gold.

The piece is lacking a screw fitting at the back, but this does not impact its use as a pendant or brooch.

Suggested age: late 19th/early 20th century

Created: Fri, 8th May 2026 09:29
